

Essential to the products they seal and dispense, closures influence consumer perceptions and product success. So when you seek to add value, stand out in your category, or solve packaging problems, custom closures may be in order. In which case, you're in luck. Because Yorker Closures offers complete custom capabilities to answer your needs.

Yorker Closures are the popular choice for many top brands worldwide:

- Plaid Enterprises
- Franklin International
- Color Rite
- Pennzoil
- Quaker State
- Slick 50 Products
- Mel Olson Honey
- Parker Labs
- Conroy Foods
- Dow Corning
- Turtle Wax
- Universal Beauty
- Safeguard Chemical
- Cosmair

Award Winning Custom Capabilities At Yorker, our custom design and engineering team has produced products like the Yorker Push-Pull Ribbon Applicator, doing away with messy, makeshift glue applicators for Titebond brand glues. No wonder Popular Woodworking Magazine cited Titebond's Yorker-designed push-pull ribbon applicator as "One of Twelve Best New Products" for 1999.

Thanks to our 50-plus years in the closure industry, our engineers have become expert problem-solvers. In fact, we win and retain our best customers by solving problems that others cannot. And, we are equally adept at handling the day-to-day demands of production, on time and within budget.

Custom Options Custom options are at your command because we offer an array of leading-edge capabilities. Like multi-material molding, complex assembly and high volume capacity. All orchestrated by processes encompassing CAD/CAE product design, and real-time SPC.

Mold Guarantee With Yorker molds, you're set for life. With our lifetime mold guarantee, your mold will be properly maintained during its productive life and repaired or replaced at no additional cost to you. You will never have to pay for a replacement mold, maintenance, additional components, or down cavitation pricing.

Your color options are almost unlimited.

We give you the freedom to extend corporate colors to your closures, to color-code closures for specific applications, and to use color as a potent attention-grabber and sales generator.
