

LIP BALM STICK

Features and Benefits

- Elevator locking mechanism assures a down elevator position to improve filling efficiency and reduce costly downtime
- Propel/repel function is positive and reliable due to a new thread design on both the screw and elevator which prevents slippage, spinning and cross-threading
- High gloss surface finish provides favorable cosmetic appearance and label retention
- Small radius edge and flattop on cap provide a sharp appearance
- "Snap retention" cap design assures secure fitting and allows easy on/off motion for users
- Carefully calculated volume accepts a variety of lip balm recipes from 4.25 to 4.35 grams to prevent waste
- Alternative option — larger diameter screw knurl to allow the use of a top-loaded heat shrink label
- Custom color matching on any of the lip balm components is available upon request.
